

Dear SASA member:

The next RAPSA / SASA Ultrasound guided regional anaesthesia meeting in Bloemfontein will be held on Saturday 28 January at the UFS Medical Faculty.

**Morning session - Truncal blocks:**

Short Lectures:

- Knobology - Dr P Kruger
- Intercostal and Paravertebral blocks - Dr C Louw
- Abdominal wall blocks - Dr A Travers
- Ethics: Ultrasound as standard of care - Dr J van der Westhuizen

To be followed by hands on ultrasound practice using a combination of anatomical specimens, live models and phantoms.

Additional insights provided by Dr Johan Steyl - Department Anatomy, UFS.

Cost:

Registrars belonging to SASA: R300

Specialist SASA members: R400

Non SASA members: R500

**Afternoon session - Pig workshop**

(Separate registration required, limited space available)

A hands on session allowing further demonstration and refinement of clinical techniques using a live (anaesthetised) pig model. This is a very small workshop with a highly individualised approach, allowing for a very intensive learning experience.

Cost: R1500
